

Recommendation for James Donak

4-16-00

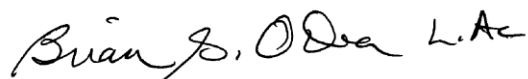

To Whom it May Concern,

I highly recommend Jim Donak as a teacher for acupressure, anatomy and physiology and Traditional Oriental Theory. As a licensed acupuncturist and a teacher for 15 years at the Acupressure Institute, I have studied with many teachers and taught many students. Jim has a clear voice, careful presentation of material and a willingness to answer and make clear the material. Students enjoy his classes and return for more studies.

Jim has assisted and co-taught Basic and Advanced program classes that I supervised. The student's response was warm and enthused. His notes were clear and informative.

I appreciate his insightful assistance during classes. He brings a wealth of teaching circus and gymnastic arts to children and adults into his acupressure classes and make the experience fun.

Thank you,
