

April 13,2000

To whom it may concern,

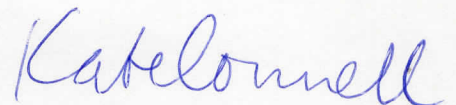

We are writing to recommend Jim Donak as an acupressurist. We have received sessions from Mr. Donak for the last year and a half. Between us as a family, we see him a total of 4 times a month. Under his care, the health of both of us has improved significantly and continues to progress.

As an acupressure practitioner, Mr. Donak is imaginative, careful, thoughtful and compassionate. We have a great trust in him. We have always found him to be extremely professional. He makes every effort to accommodate our health and scheduling needs.

Mr. Donak's care goes beyond professionalism, by comparing notes, we know that he has created unique session plans for each us . He carefully explains his assessments and approaches, at times demonstrating with anatomical drawings. He advises us of our progress and informs us of future plans and session approaches. He also clearly explains how we can work to improve our own health.

We have recommended Mr. Donak to friends and associates who in turn have been very happy with the service that he provides. Jim Donak stands out in a region rich in health professionals.

Sincerely,

Kate Connell/Oscar Melara
