3rd July 2018

To whom it may concern.

I am writing this letter to recommend Jim Donak as a highly skilled and experienced dissector and instructor of structural and functional anatomy.

For over the past 5 years I have had the pleasure of working with Jim in an anatomy lab setting. Most recently he attended one of my dissection courses at Oxford University in 2017.

Jim's knowledge of human anatomy and his ability to create traditional and novel prosections via expert dissection is remarkable. He has also consistently demonstrated respect for the laboratory environment and those with which he is collaborating.

Jim is strongly motivated to learn and progress his skills and is an inspiration to his peers. He brings a positive attitude and cooperative spirit into his work.

It is without reservation that I highly recommend Jim. He will make a great addition to any gross anatomy lab.

If you have any further questions with regard to his qualifications, please do not hesitate to contact me.

A handwritten signature in black ink that reads "Julian Baker". The signature is written in a cursive, flowing style.

Julian Baker
